Geocaching: GPS + Treasure Hunting

3203/CEC 010 - $65

Geocaching is a high tech treasure hunting game played throughout the world by adventure seekers equipped with GPS devices. Using web-based and hand-held technology you will locate containers hidden outdoors, called geocaches, then record your findings on the official geocaching website. Geocaching is enjoyed by people of any age. This class is open to adults as well as children. Children under 16 must be accompanied by a parent or have a Parental Consent and Acknowledgement on file. Contact Tracy Peterson in the Club Ed office with questions. The class will choose a date for a Saturday field trip (separate registration is necessary).

Co-Housing: Neighborhoods by Design

3212/CEC 021 - $69

Collaborative housing in which residents actively participate in the design and operation of their own neighborhoods is the key to co-housing. Homeowners are consciously committed to living as a community with the physical design encouraging both social contact and individual space. Housing is in conventional homes, but residents have access to extensive common areas such as open spaces, courtyards, a playground, and a common house. Come and explore the past, present, and future of co-housing as a model and possible option for living. Couples may attend for no extra cost.

Cinema Literacy for Educators

3206/ED 299 - $120 (WA Residents)

Right now most students intuitively understand more about filmmaking than the teacher who assesses their homework assignments on video—and the students know it. Get the upper hand with the YouTube generation by learning how to critique a video as authoritatively as you do any writing assignment. Film and video use a language that has syntax, vocabulary and grammar, and you will learn it in this fast paced and entertaining “boot camp.” Consider this training as a valuable tool for reaching the students you teach. A light dinner on Friday evening is included; bring your own sack lunch on Saturday.

Educators may earn 1 credit or 10 clock hours for this 10-hour course.

How to Survive in the Woods

3208/CEC 015 - $54

“Be prepared” is a Boy Scout motto that never goes out of fashion. To be prepared you need to know what to plan for so you can enjoy outings in the wilderness safely and confidently. Among the topics discussed are: survival skills, map reading, how to use the compass and GPS coordinates, what to pack, how to dress, how to build an emergency shelter, and what to do should you become lost. Adults and children may take the class together. See age and consent requirements listed under the Geocaching class description. Class includes a Saturday field trip.

Recognizing the Paranormal

3210/CEC 042 - $35

It’s easy to dismiss as quackery, but the world of the paranormal is available for exploration. The instructor attended a school for the paranormal in Portland and is considered a “medium.” She will explain the existence and significance of paranormal events that we may encounter—but dismiss—in our lives. Come prepared to dismiss some of your preconceptions of life.
