

Walla Walla Community College
and
Northwest Grain Growers Present:

Precision in Agriculture

A Northwest Grain Growers grant has provided Walla Walla Community College with funding to provide the producers in Southeast Washington with one location over two days to help in their understanding of how precision equipment can be utilized on their farm and benefit their bottom line.

**Presenters representing products used in the area will be:
Ag Leader, Case IH, John Deere, Raven, Top Con and Trimble.**

RSVP: Denise Marr, WWCC Foundation Office: 509.527.4275 – Email: denise.marr@wwcc.edu

Visit www.wwcc.edu/maps to see parking for the event at the Water Center and between buildings J, K, and H.
