Comments from Tim Toon * WWCC Volleyball Coach

“We are getting better every time we step on the court. Southwestern Oregon is a quality mid-tier team. Chemeketa is well coached and went 50-0 last season. These were two significant wins.

In the first 2 sets against Chemeketa, we played great most of the time, but lost focus at about the 15-point mark and let them streak 4 or 5 points. That was the difference. In the last 3 sets, we played well throughout and were in the driver’s seat when streaks of points were being scored.

There is a high degree of accountability when you play really good teams. When you make mistakes, you don’t get away with them and you lose. You have to play intense and error free volleyball to win.”
