Walla Walla Community College . . . your best choice

Health & Safety

Walla Walla Community College cares about the safety and welfare of all its students and staff. The College is committed to maintaining an environment free of crime, illicit drug use, and abuse of alcohol. While it is the policy of the College to assist students and employees to seek treatment for drug or alcohol dependency, any student or employee committing criminal acts or participating in the unlawful use of drugs or alcohol on any property under the control of Walla Walla Community College or participating in any sponsored activity shall immediately be subject to the rules and regulations concerning such acts and shall be referred to appropriate authorities.

The above information is published in compliance with the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226) and Chapter 288B.10 Revised Code of Washington and the Student Right to Know and Campus Security Act, 1990. (Public Law 101-142.)

Walla Walla Community College is committed to provide equal opportunity and non-discrimination for all educational and employment applicants as well as for its students and employees. Without regard to race, color, creed, national origin, sex, sexual orientation, including gender expression/identity, marital status, age (over 40), the presence of any sensory, mental, or physical disability; the use of trained guide dog or service animal by a person with a disability; or status as a Vietnam and/or disabled veteran, National Guard member or reservist in accordance with the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, the Federal Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and any other applicable Federal and Washington State laws against discrimination. For further information or to request accommodation, contact WWCC’s Disabilities Support Services Office: Walla Walla Campus (509) 527-4262 • Clarkston Campus (509) 758-1718 • TDD (509) 527-4412

2009-2010 School Year

Enrollment

Walla Walla Community College had a full-time equivalent enrollment of 4,977, consisting of an average headcount of 6,791 per quarter for the 2008-2009 academic year. Daytime on-campus enrollment averaged 3,234 students per quarter.

Employees

Walla Walla Community College employs 23 administrators, 130 full-time and 34 part-time instructors, and 267 full- and part-time support personnel.

Security

Facility Services employees are alert to any breaches of security observed during the normal course of their duties. The buildings and grounds are periodically patrolled, and breaches of security are reported to Facility Services. Close coordination with local law enforcement agencies is maintained on a 24-hour basis.

In compliance with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act, information concerning campus disciplinary procedures and campus crime statistics for the most recent three-year period can be found on-line at http://www.wwcc.edu/CMS/index.php?id=551 or may be requested from the Office of Admissions & Records, Walla Walla Community College, 500 Tausick Way, Walla Walla, WA 99362.

Rules of Conduct Regarding Drugs, Alcohol, Tobacco, and Firearms

Pursuant to RCW 28B.50.140, the Board of Trustees is empowered to adopt rules and policies regarding the operation of Walla Walla Community College. Over the past several years, the Board has adopted policies and rules regarding drugs, alcohol, and tobacco, and mandated strict compliance with both the letter and intent.

Drugs

Walla Walla Community College has a drug abuse prevention program with procedures ensuring that all employees and students are notified of its drug-free policy and bound by its terms.

In accordance with the Code of Conduct, any student who shall use, possess, or sell any drug on college facilities or at college-related activities shall be subject to disciplinary action except when such use or possession

The above information is published in compliance with the Drug-Free Schools and Communities Act Amendments of 1989 (Public Law 101-226) and Chapter 288B.10 Revised Code of Washington and the Student Right to Know and Campus Security Act, 1990. (Public Law 101-142.)
is specifically prescribed as medication by authorized medical personnel. Employees or students engaging in such prohibited activities shall be subject to disciplinary action, pursuant to applicable rules, regulations and employment contracts, which may result in suspension or termination.

All students engaged in athletic or intramural activity shall upon conviction be immediately suspended from participation in college-sponsored athletic or intramural events.

Alcohol

The possession or consumption, or being demonstrably under the influence of any form of alcohol by any student on college facilities or at college-related activities shall be cause for disciplinary action.

Tobacco, RCW 70.160.030—Smoking in public places except designated smoking areas is prohibited. Use of tobacco products is restricted to areas outside college facilities and vehicles.

Firearms—No person or group may use or enter onto college facilities having in their possession firearms, even though licensed to do so, except commissioned police officers as prescribed by law.

Criminal Violations—Any student who shall commit theft, assault, acts of forgery, or any other act on college facilities which is punishable as a gross misdemeanor or a felony under the laws of the state of Washington and which act is not a violation of any other provision of the rules of student conduct, shall be subject to disciplinary action.

Unlawful Possession and Use of Alcohol and Other Controlled Substances

WARNING: These laws are representative only and may not be accurate and complete; they are subject to change without notice at any time and therefore are for guidance only.

Federal Law

Federal laws prohibit the manufacture, distribution or possession of controlled (prescription) or counterfeit substances. Federal penalties for violation—Prison Term: 5 years to life, Fines: $50,000 (can be both).

Local Law

RCW 66.44.270—Any person selling, giving, or otherwise supplying alcohol to any person under 21 years of age, or permitting any person under 21 years of age to consume liquor on his/her premises or on any premises under his/her control, Prison Term: max 1 year, Fines: max $5,000 (can be both).

Possessing over 200 tablets or 8cc bottles of steroid without a valid prescription—(no prior conviction) Prison Term: max 1 yr, Fines: max $5,000 (can be both).

Possessing under 200 tablets or 8cc bottles of steroid without a valid prescription—(no prior conviction) Prison Term: max 5 yrs, Fines: max $10,000 (can be both).

RCW 69.50.401—Manufacturing, delivering, or possessing with intent a controlled substance as defined by law—(no prior conviction and less than 2 kg of drug) Prison Term: max 10 yrs, Fines: max $25,000; if more than 2 kg of drug fine is $100,000 for the first 2 kg and not more than $50 for each gram in excess of 2 kg, or it can be both.

Other controlled substances classified under law (non-narcotic drugs)—(no prior conviction) Prison Term: max 5 yrs, Fines: max $10,000 (can be both).

RCW 69.50.406—Any person 18 yrs of age or over distributing a controlled substance listed in the law, which is a narcotic drug or methamphetamine, or hallucinogen, to a person under 18 yrs of age—(no prior conviction) No drive a car safely. Low to moderate doses increase the incidence of aggressive acts. Moderate to high doses cause impaired judgment in daily functions, severely altering a person’s ability to learn and remember. Very high doses cause respiratory depression and death. Alcohol use by pregnant women is the leading preventable cause of mental retardation in children.

Tobacco—The primary active ingredient is nicotine. Nicotine is a very toxic substance and a highly addictive stimulant. Contains carbon dioxide and monoxide, formaldehyde, hydrogen cyanide ammonia, and numerous tar, which cause cancer.

Effects of Controlled Substances

Narcotics (opium, morphine, codeine, heroin, methadone and a host of synthetic substances such as Demerol, (Dilaudid, Percodan and Talwin)) can cause euphoria, increased energy, mood elevation, reduced guilt, loss of consciousness, respiratory depression, constipated pupils, and nausea. Overdose can cause shallow and slow breathing, clammy skin, convulsions, coma, and death. Withdrawal symptoms include vomiting, yawning, loss of appetite, irritability, tremors, panic, cramps, nausea, chills, and sweating.

Depressants (chloral hydrate, barbiturates, and benzodiazepines such as Ativan, Halcion, Librium, Valium, and Xanax) can cause slurred speech, disorientation, and drunken behavior without odor of alcohol. Overdose causes shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, and death. Withdrawal symptoms include vomiting, insomnia, tremors, delirium, convulsions and possibly death.

Stimulants (coca, amphetamines to include methamphetamine, Ritalin and Preludin) can cause increased alertness, excitation, euphoria, increased pulse rate and blood pressure, insomnia, and loss of appetite. Overdose causes agitation, increase in body temperature, hallucinations, convulsions, and possible death. Withdrawal symptoms include apathy, long periods of sleep, irritability, depression, disorientation, and psychosis.

Hallucinogens (LSD, psilocybin mushrooms, peyote, phencyclidine or PCP, ecstasy, MDMA, MDA, STP and a number of others) cause illusions and hallucinations. Poor perception of time and distance. Overdose causes longer and more intense “trips” or episodes, psychosis, and possible death. Withdrawal symptoms are not reported.

Cannabis (marijuana, Tetrahydrocannabinol or THC, and hash) can cause euphoria, relaxed inhibitions, increased appetite, and impaired memory and attention. Overdose causes fatigue, paranoia, and the possibility of a psychotic state. Withdrawal symptoms are not reported. In some instances it can depress the immune system, increase the risk of heart disease, contribute to lung diseases, and cause infertility.

Inhalants (benzene, gasoline, carbon tetrachloride, acetone, Freon, nitrous oxide or laughing gas, amyl or butyl nitrite, and organic nitrogen room odorizers) can cause a relaxed somewhat light-headed and giddy feeling, reduced inhibitions, numerus of the senses, hallucinations, loss of consciousness, headache, nausea, dizziness, double vision, and muscle spasms. Overdose can cause nausea, vomiting, poor coordination, paralysis, and coma. Withdrawal has not been defined. Fatal accidents and other life-threatening situations can occur from situational use of these substances.
