Master Course Outline
NURS 200
Advanced Nursing Concepts I

Credits: 7
Clock Hours per Quarter: 70

AA Discipline:

Lecture Hours: 70

Description
A continuation of nursing principles introduced in NURS 102. The focus is on providing care to clients with complex care needs related to disturbances in mental health, disease processes in selected body systems, and managing care for groups of clients. Prerequisites: NURS 102 and 112 or transition applicant. Co-requisite: NURS 210. This course is effective through Summer 2016. For the Master Course outline Fall 2016 and beyond click here.
