• Office in room 40, way in the back
• 527-4578 (w), 301-3839 (c)

Course Description
This course explores our solar system. It will cover not only the objects—planets, moons, asteroids, comets, meteors, and objects beyond Pluto's orbit, but also behaviors—eclipses, shooting stars, and paths of objects. Added to this, we will discuss how we know what we know such as proving the Earth is a sphere, that planets orbit the sun (and not the Earth), and the size and mass of the solar system objects.

Class Schedule
• Mon., Tue., Thu., Fri., Room 225, 9:30 am – 10:20 am
• Wednesdays, Room 225, 8:30 am – 10:20 am (LABS)
• No class on Friday, November 11 (Veterans' Day)
• No class on Wednesday, November 16 (Advising Day)
• No class on November 21—25 (Thanksgiving Week)
• Last Class is on Monday, December 5
• Final exam is on Wednesday, December 7, Room 225

Materials
• In Quest of the Universe, 6th Edition; by Kuhn and Koupelis, 2011
• Scientific calculator

Grading
• Three Exams, 42%
• Final Exam, 20%
• Labs Exercises, 20%
• Quizzes, 15%
• Daily Reports, 3%
• Grade Table where x is the percent of points earned:

<table>
<thead>
<tr>
<th>Grade</th>
<th>93 ≤ x ≤ ∞</th>
<th>87 ≤ x &lt; 90</th>
<th>77 ≤ x &lt; 80</th>
<th>67 ≤ x &lt; 70</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td></td>
<td>B+</td>
<td>C+</td>
<td>D+</td>
</tr>
<tr>
<td>A-</td>
<td>90 ≤ x &lt; 93</td>
<td>B-</td>
<td>C-</td>
<td>F</td>
</tr>
<tr>
<td></td>
<td></td>
<td>80 ≤ x &lt; 83</td>
<td>70 ≤ x &lt; 73</td>
<td>-∞ ≤ x ≤ 60</td>
</tr>
</tbody>
</table>
Exams
- Three exams during the quarter consisting of a variety of question types.
- One comprehensive final exam.
- Make-Up exams will only be given when I have been notified in advance with a verifiable reason that I determine is adequate.

Labs
After each lab session there will be a worksheet or lab write-up to be handed in. This will be due on the Friday following the lab. Late labs will be accepted up to one week late, but will receive a substantial grade reduction.

Homework
There are review questions at the end of each chapter in the textbook. Although I will not be collecting homework, I strongly urge you to write out each of the answers. There will be no better method of studying for tests and the final than going over the answers to these review questions and reading through your lecture notes.

Daily Reports
At the end of each class you will be given the opportunity to make comments or ask questions regarding the materials presented that day, or anything else within the bounds of the class. You will be given 2 points for the report each day. I find this a productive way of checking attendance. If you come to class after I have begun the day’s lecture I will only give you 1 point for your Daily Report.

Quizzes
There will be approximately 20 quizzes. Quizzes will be on the material just covered, usually on a lecture from the last two days. The top 15 quizzes will count towards the final quiz grade. Quizzes will be graded out of 5. There will not be any opportunity to make up quizzes.

Accommodations
If you have a disability and need accommodations, please see the instructor after class or contact Claudia Angus, the Disabilities Coordinator at claudia.angus@wwcc.edu or 509-527-4543.
Weekly Schedule
Week #1, September 19 – September 23
Chapter 1 – The Quest Ahead

Week #2, September 26 – September 30
Chapter 1 – The Quest Ahead (continued)
Chapter 2 – From an Earth-Centered to a Sun-Centered System

Week #3, Oct. 3 – Oct. 7
Chapter 2 – From an Earth-Centered to a Sun-Centered System (cont)

Week #4, Oct. 10 – Oct. 14
Exam #1 on Monday, October 10 (Chapters 1-2)
Chapter 3 – Gravity and the Rise of Modern Astronomy

Week #5, Oct. 17 – Oct. 21
Chapter 3 – Gravity and the Rise of Modern Astronomy (cont.)
Chapter 6 – The Earth-Moon System

Week #6, Oct. 24 – Oct. 28
Chapter 7 – A Planetary Overview

Week #7, Oct. 31 – Nov. 4
Chapter 7 – A Planetary Overview (cont)
Exam #2 on Friday, November, 4 (Chapters 3, 6-7)

Week #8, Nov. 7 – Nov. 11
Chapter 8 – The Terrestrial Planets
No Class Friday

Week #9, Nov. 14 – Nov. 18
Chapter 9 – The Jovian Planets
No Class Wednesday
Exam #3 on Friday, November 18 (Chapters 8-9)

Week #10, Nov. 28 – Dec. 2
Chapter 10 – Dwarf Planets and Solar System Debris

Week #11, Dec. 5 – Dec. 7
Review Monday
Final Exam on Wednesday, December 7 (Chapters 1-3, 6-10)
