AEW Participation Report Details.

Each participation report is specific to a given AEW compilation. Each record in the participation report represents a class section. All class sections for the quarter that the compilation is defined in are listed. This can include classes with no-enrollment or have other unusual properties. The AEW system may list classes that have been removed from the SMS system as it replicates the class keys from the CIS SMS and never deletes class sections so that data is never lost.

Fewer classes may be listed if the report is generated with the option to apply the confi
