WWCC 104 Richard Monacelli  
Starting Your Own Business  
3344/BPD 014T $69  
The right stuff--an entrepreneurial spirit--may be the initial ingredient in launching a successful business, but there are other essentials to know as well. Learn about how to develop a business plan, the different forms of ownership, the "7 P's" of marketing, recordkeeping, taxes, capitalization, licensing and sources of assistance.  
T, Mar. 29  
Marketing for Profit  
3341/BPD 014U $69  
Essential information you need to know before you launch a campaign for a new product or service make up the elements of this seminar. Three areas of marketing--production, sales and demand oriented marketing--are described, along with nonprofit marketing, the functions of marketing, and the marketing environment, be it competitive, political, economic, technological or cultural.  
T, Apr. 12  
Recordkeeping for Small Business  
3343/BPD 014V $69  
Taxes, lenders, trade creditors, and investors are all part of the accounting continuum in business with which you will become familiar. With the objective being to create financial statements, you will work backwards to data collection procedures. Accrual and cash basis accounting are also covered.  
T, Apr. 26  
Financial Management for Small Business  
3342/BPD 014W $69  
Learn to use financial statements for more profitable, effective, and efficient management of your business. Balance sheets, profits and loss statements, cash flow, ratio analysis, and forecasting will all be introduced. You will learn to make a financial proposal to a lending institution as well.  
T, May 10  
Small Business Contracting  
3345/BPD 014X $69  
The elements of a contract, business licensing, contractor compliance with the Dept. of Labor and Industries, employment issues, selling to the government, and assistance and resources are covered here.  
T, May 24  
Mandatory Alcohol Server Training  
3457/BPD 095 $40  
If you are pouring or serving alcohol in a business establishment, you are required to have an Alcohol Serving Permit within 60 days of the date of hire. WWCC offers MAST training the second Tuesday of the month, every other month. Permits are given if you pass the test and are valid anywhere in the State for five years.

It’s spring and what better time to take a Club Ed learning vacation! Awaiting you in the classroom are friendly F2F instruction and real connections with live people. Get on board with the Cruise Card and Friendly 4 discount and enjoy the fun and mental stimulation of leisure learning.

**Club Ed Cruise Card**

If you have taken a Club Ed class you should have received a Cruise Card in the mail complete with the stamps you earned towards your free Cruise (a.k.a. class). Bring your card back into the Club Ed office, #52, to have it updated with classes you have taken recently or are taking spring quarter. Remember, after four classes your fifth Club Ed class is free. If you are new to Club Ed, your Cruise Card will be sent to you during spring quarter.

**Note:** Classes that qualify for a Cruise Card have a CEC course code. To qualify for the free “Cruise”, all classes must be taken within two years of the first class.

**The Friendly 4**

Get four of your friends on board for a specific class and the fifth comes as a free “Stowaway.” Friendly 4 participants must register in the Club Ed office in Admin II at WWCC.

**Note:** Minimum enrollment must be met in the particular CEC class before discounts apply.

### GENERAL INTEREST CLASSES

#### Intentionally Excellent

**3282/CEC 081**  
$69

Excellence is never accidental. You envision it, commit to it, and create it. This experiential class will deepen your understanding of what it means for you to be excellent in all aspects of your life. The knowledge and skills learned here will help you move—with intention—toward a fuller expression of your potential.

- **T, Apr. 5-May 3**  
  6:30-8:30PM  
  WWCC 243  
  Suzanne Shafer

#### Mastering the Mighty Ukulele

**3242/CEC 050**  
$49

It’s small, it’s mighty, and it is making a comeback! This four string instrument is within the playing ability of many who have never played a string instrument. Learn how to tune and strum your ukulele and learn chords and simple songs. Ukuleles are available locally for under $50.

- **Th, Apr. 7-May 5**  
  6:30-8:00PM  
  WWCC Music Bldg. 303  
  Arranged

#### Recognizing the Paranormal

**3263/CEC 042**  
$35

It’s easy to dismiss as quackery, but the world of the paranormal is available for exploration. The instructor attended a school for the paranormal in Portland and is considered a “medium.” She will explain the existence and significance of paranormal events that we may encounter—but dismiss—in our lives. Come prepared to challenge some of your perceptions of life.

**In Search of Human Creativity**

**3180/QUEST 081**

$52
By looking at five moments in the history of art, from the Middle Ages to the Twentieth Century, some of the social and psychological roots of human creativity will be explored. In particular, artistic creativity and its extension between the disciplines of the arts, and across into economics, philosophy and science, will be highlighted.

T, May 10-June 7
2:30-4:30pm
WWCC 106
John Jamison

**From Page to Stage:**

**Modern Theatre from Script to Performance**

**3125/QUEST 069**

$52
What does it take to transform a script into a fully realized live production? Using Shaikespeare’s *As You Like It* as the example, the process will be followed from interpretation through artistic direction, design, equipment, management, and promotion to the presentation of the finished product on stage. Whitman Professor of Theatre, Thomas Hines, will co-teach this class with Whitman Professor Emeritus Ed Foster.

**History of Walla Walla**

**3124/QUEST 068**

$52
Some of the major individuals and events that influenced the history of the Walla Walla valley will be described in this local history class, starting with Native Americans, explorers and traders. As time moved on so did the influence of missionaries, soldiers, prospectors, farmers, merchants, educators, and engineers—all who helped shape the era in which we currently live.

F, May 13-June 10
2:30-4:30pm
