

NEW PROGRAM

Business Administration

at Walla Walla Community College - Clarkston Campus

www.wwcc.edu/business

The Program

The nation's businesses are a part of an economic system that contributes to our society's standard of living and quality of life. Business administration skills are critical to the survival of companies. Managers in today's highly competitive industries must have knowledge and skills in accounting, marketing, resource allocation, technology, retailing, and many more elements that are vital to a company's success.
