Quick Guide to Programs & Degrees
Welcome to WWCC!
This is the place to put your hopes and dreams in motion. If you want to take the next step in more education, more training, a better job, then we are here to help you make that happen.

Why is WWCC Your Best Choice?
Our classes are high quality with some of the best technology available. Small class sizes mean you will get the individual attention that can be hard to find at the big universities. Our instructors are here because they love to help people learn, so they offer you the best kind of education.

If your goal is a four-year bachelor’s degree, we give you the right variety of courses that are designed to transfer to the college or university of your choice. We help advise you to find the surest path to get to your goal. If you want to gain the professional skills to find a great career path, we have a wide variety of workforce programs aimed toward degrees and certificates that can lead to great jobs. And the best part? The cost of WWCC is a fraction (less than half to be exact) of what it would cost you to get these courses at a four-year university.

Walla Walla Community College, one of 34 community colleges in the state of Washington, is an open admission college. We are helping every person who walks through our doors get started in making the changes they need.

What Degrees Are Available?
Associate in Arts and/or Science Degree: This degree is designed for students planning to transfer to a baccalaureate institution with junior standing. Students pursuing this degree should plan their programs at Walla Walla Community College in accordance with the requirements of the institution to which they plan to transfer.

Associate in Applied Arts and Sciences Degree: This degree is designed primarily for students planning to enter a career directly upon graduation.

Certificates and Endorsements: Students who complete core courses in one year of an approved professional-technical program and nine credits of related instruction may receive a certificate upon request from the student.
Transfer Options

For all transfer option listed below, students should contact the transfer institution for any additional requirements, procedures for admission, and to determine an appropriate education plan.

**Associate in Arts - DTA***

The Associate in Arts degree is the community college degree designed to transfer to bachelor’s of arts degrees at Washington public four-year institutions. This degree is appropriate for students planning to major in the arts, humanities and social sciences.

**Associate in Business - DTA/MRP**

This Associate degree is designed for students transferring to a four-year institution to major in business.

**Associate in Science Transfer Degree**

The Associate in Science Transfer Degree is intended for students majoring in science who wish to transfer to four-year institutions in Washington. Two different options are offered:

1) biological science, chemistry, geology, environmental/resource sciences, & earth science
2) engineering, computer science, physics, & atmospheric science

This degree allows students to concentrate on fulfilling pre-major coursework in their intended field of study. Coursework for the AS degree is concentrated in specific math and science requirements. Additional coursework in general education will be required at the transfer institution.

**Associate in Math Education - DTA/MRP**

This Associate Degree is for students planning to major in secondary math education at a baccalaureate institution.

**Associate in Biology - DTA/MRP**

This Associate Degree streamlines and facilitates preparation for upper division coursework in Biology for transfer to many four-year institutions in the state of Washington.

*DTA stands for Direct Transfer Agreement. **MRP stands for Major Related Program.
Articulation Agreements

Articulation Agreements exist between Walla Walla Community College and several baccalaureate institutions. These agreements allow a seamless transfer to specific majors at the selected college or university. Current articulation agreements include Lewis and Clark State College, Washington State University, University of Washington, Eastern Washington University, University of Idaho, and Oregon State University. Please visit the Transfer Center online at www.wwcc.edu/transfer for more information.
WWCC’s Degree Options
• AAAS in Accounting Technology
• AA in Accounting Technology
• Bookkeeping Certificate

For More Information
Anne Nelson
509.527.4232
anne.nelson@wwcc.edu
www.wwcc.edu/accounting

The Industry
Every organization has a need for accountants and bookkeepers to pay employees, file tax returns, and report to governmental agencies. This profession consequently has many and varied job opportunities for trained personnel. Due to recent shifts in the labor industry, a shortage of trained accountants has developed. This trend combined with changes in tax laws and increased disclosure requirements has generated an increased value placed upon people in the business world that have accounting skills.

Career Opportunities
• Tax Preparer
• Bookkeeper
• Payroll Preparer
• Accounting Manager
• Internal Auditor
• Government Accountant or Auditor

WWCC’s Degree Options
• AAAS in Agri-Business
• AAAS in Wine Marketing
• AS in Agri-Business
• Certificate in Agri-Business

For More Information
Debora Frazier
509.527.4689
debbie.frazier@wwcc.edu
www.wwcc.edu/agbusiness

The Industry
Agriculture Business experts apply a wide range of knowledge of markets, products and laws to local, regional, national and international agricultural commerce. Producing and marketing food and fiber products is a vital and important industry in the United States. The United States is the largest producer and exporter of agricultural products in the world. The agri-business sector employs close to one fourth of the U.S. labor force. These individuals assist the producer of food and fiber products in input procurement, marketing, financing, and management.

Career Opportunities
• Farm Manager
• Agriculture Sales Associate
• Commodity Broker
• Store Manager
The Industry
Production agriculture is an applied science industry requiring trained technicians and professionals with knowledge of biological and chemical principals. Persons employed in the agricultural science field need to apply this knowledge to the production of food and fiber at the primary producer, support services, or research and development level. As the agricultural science industry advances in the use of technology, there is a continued demand for trained individuals.

Career Opportunities
- Farm/Ranch Manager
- Agricultural Sales Representative
- Agricultural Technician
- Field Personnel
- Greenhouse/Nursery Personnel

WWCC’s Degree Options
- AAAS in Agricultural Science
  - Plant and Soil Sciences
  - Animal Sciences
- AS in Agricultural Science
- Plant and Soil Sciences Certificate
- Animal Sciences Certificate

The Industry
The ability to diagnose the source of a problem quickly and accurately requires good reasoning ability and a thorough knowledge of automobiles. Automotive service technicians inspect, maintain, and repair automobiles and light trucks that have gasoline engines. The increasing sophistication of automotive technology now requires workers who can use computerized shop equipment and work with electronic components while maintaining their skills with traditional hand tools.

Career Opportunities
- Automotive Repair
- Automotive Maintenance Shops
- Automotive Dealers
- Automotive Parts Retailers
- Automotive Parts Wholesalers

WWCC’s Degree Options
- AAAS in Automotive Repair Technology
- Automotive Repair Technology Certificate

The Industry
The nation's businesses are a part of an economic system that contributes to our society’s standard of living and quality of life. Business administration skills are critical to the survival of companies. Managers in today's highly competitive industries must have knowledge and skills in accounting, marketing, resource allocation, technology, retailing, and many more elements that are vital to a company's success.

Career Opportunities
• Administrative Services
• Advertisers
• Marketers
• Financial Managers
• Real Estate Managers
• Food Service Managers
• Business Owners
• Retailing Managers

WWCC’s Degree Options
• AAAS in Carpentry
• Certificate in Carpentry

For More Information
Armando Maldonado
509.524.4806
armando.maldonado@wwcc.edu
www.wwcc.edu/carpentry

The Industry
Carpenters are involved in many different kinds of construction activity, from the building of highways and bridges to the installation of kitchen cabinets. Carpenters construct, erect, install, and repair structures and fixtures made from wood and other materials. Depending on the type of work and the employer, carpenters may specialize in one or two activities or may be required to know how to perform many different tasks.

Career Opportunities
• Construction Manager/Supervisor
• Building Contractor
• Carpenters’ Assistant
The Industry

Automotive manufacturers have made revolutionary changes in automobile designs bringing new concepts to the field of auto body repair, requiring proper training to restore damaged vehicles to their factory specifications in respect to both body repair and paint. The technology of the automobile has changed faster in the past five years than in the previous two decades, ensuring the future for highly trained and skilled workers in the collision repair field.

Career Opportunities

- Auto Body Repair Technician
- Custom Painter
- Motor Pool Maintenance
- Automobile Manufacturer
- Shop Supervisor
- Insurance Appraiser
- Auto Detailer
- Auto Body Supply Representative
- Paint and Equipment Manufacturer

WWCC’s Degree Options

- AAAS in Auto Body Repair Technology
- Auto Body Repair Technology Certificate

The Industry

Truck drivers are a constant presence on the nation’s highways and interstate s, delivering three out of every four tons of goods shipped in the country. Even if goods travel in part by ship, train, or airplane, trucks carry nearly all goods at some point in their journey from producer to consumer. This trend, combined with increased pay and benefit packages provided by motor carrier employers has lead to the strong demand for commercial truck drivers.

Career Opportunities

- General & Specialized Freight Trucker
- Local & Long Distance Truck Driver
- Heavy Truck Driver
- Dispatcher
- Freight Department Manager

WWCC’s Degree Options

- Advanced Truck Driver Training Certificate
- Truck Driver Training Certificate

For More Information

The Industry

Organizations continue to adopt and integrate increasingly sophisticated technology, leading to tremendous job growth for computer support specialists, technical support specialists, and network system administrators. These specialists can provide technical assistance, support, and advice, and interpret problems. Network or computer systems administrators design, install, and support an organization's LAN, WAN, network segment, Internet, or intranet system.

Career Opportunities

• Computer Support Specialist
• Technical Support Specialist
• System Administrator
• Professional Equipment Sales Rep.
• Software Publicist
• Computer Systems Designer

Cosmetology

Cosmetology is an exciting people-oriented profession. It is a time-honored yet changing career with excellent career possibilities. The future for cosmetologists includes specialization, travel, teaching, employment as a workshop technician, sales of cosmetic supplies and materials, and management opportunities. Cosmetology can be a rewarding profession for the individual who is hardworking, creative and who enjoys working with people.

Career Opportunities

• Hairdresser
• Hairstylist
• Cosmetologist
• Manicurist
• Pedicurist
• Skin Care Specialist
• Day Spa Personnel
The Industry
The food service and hospitality industry provides for the largest segment of private employers in the country and offers varied career opportunities for those with a passion for cooking. The culinary arts segment of the industry provides opportunities for careers as a cook, chef, bartender, server, restaurant manager, food and beverage director, baker, pastry chef or caterer.

Career Opportunities
- Cook
- Kitchen Manager
- Banquet Manager
- Pastry Chef
- Sous Chef
- Chef
- Executive Chef
- Food and Beverage Director
- Independent Restaurant Operator

The Industry
Diesel service technicians and mechanics, also known as bus and truck mechanics repair and maintain the diesel engines that power transportation equipment such as heavy trucks, buses, bulldozers, cranes, farm tractors, and combines. Diesel maintenance is becoming increasingly complex, as more electronic components are used to control the operation of an engine.

Career Opportunities
- Heavy Duty Truck Repair
- Heavy Equipment Repair
- Medium-Duty Vehicle Repair
- Agricultural Equipment Repair
- Logging Equipment Repair
- Forklift Repair
- Mining Equipment Repair

WWCC’s Degree Options
- AAAS in Diesel Equipment Mechanics
- Diesel Technology Certificate

The Industry
As the number of parents working outside the home increases, the need for quality childcare continues to grow both locally and nationally. Education and training has been identified as one of the key factors to decrease the current rate of turnover in childcare settings. Early childhood educators work with children from birth to age eight in childcare and early learning settings.

Career Opportunities
• Preschool Teacher or Assistant
• Child Care Provider
• Child Care Center Teacher
• Child Care Center Director
• Paraeducator
**The Industry**
Although a relatively young wine industry, Washington State is now the nation’s second largest wine producer and is ranked among the world’s top wine regions. Washington’s wine industry generates more than $3 billion to the state economy. There are more than 31,000 acres of vineyards planted in the state and close to 600 licensed and bonded wineries. In the Walla Walla Valley alone, there are 1,600 acres planted in vineyards, while the number of bonded wineries in the area has grown to more than 100.

**Career Opportunities**
- Vineyard Manager
- Cellar Master
- Viticulturist
- Winemaker/Assistant Winemaker
- Lab Technician
- Wine Sales and Promotion

**The Industry**
Civil engineering technicians help civil engineers to plan and build highways, buildings, bridges, dams, wastewater treatment systems, and other structures, and to do related research. Some estimate construction costs and specify materials to be used, and some may even prepare drawings or perform land-surveying duties. Technicians may set up and monitor instruments used to study traffic conditions.

**Career Opportunities**
- Project Engineer
- Private Consultant
- Inspector
- Design Technician
- Surveyor Technician
- CADD Designer

---

**WWCC’s Degree Options**
- AAAS in Enology and Viticulture
- AAAS in Wine Marketing & Management (through the Agri-Business Program)

The Industry
Farriers are trained in the art and science of trimming and shoeing horses of all breeds. They trim the hoof to remove extra growth and to align the bone structure of the leg so it meets the ground squarely. The process that farriers use involves removing the old shoe, cleaning out the dead material, and then using nippers to remove excess hoof wall growth. The foot is then made flat using the rasp. Horse shoes are shaped to fit the hoof and nailed on. Due to the popularity and diverse use of horses there is a steady demand for qualified farriers throughout the world.

Career Opportunities
Most individuals are self-employed Farriers.

---

The Industry
Every year, fires take thousands of lives and destroy property worth billions of dollars. Firefighters rescue victims and provide emergency medical attention as needed, ventilate smoke-filled areas, and attempt to salvage the contents of buildings. They are frequently the first emergency personnel at the scene of a traffic accident or medical emergency. Firefighters work in a variety of settings, including urban and suburban areas, airports, chemical plants, other industrial sites, and rural areas like grasslands and forests.

Career Opportunities
• Firefighter
• Fire Inspector
• Emergency Medical Technician (EMT)
• Forest Service Firefighter
• Forest Service Fire Inspector

WWCC’s Degree Options
- AAAS in John Deere Ag Technology
- AAAS in John Deere Dealership Management

For More Information
Andy Winnett
509.529.1999
andy.winnett@wwcc.edu
www.wwcc.edu/johndeere

The Industry
The John Deere Company is a worldwide leader in machinery manufacture. It has been innovative in the training and recruitment of prospective employees due to the need for trained Management, Marketing, Sales, and Service Technician personnel to work in dealerships in the United States and throughout the world. In an effort to meet this demand, partnerships have been developed with educational institutions.

WWCC offers two degree options in this program. The first is a AAAS in John Deere Ag Technology. The second is a John Deere Dealership Management degree in which students receive a AAAS at WWCC and the transfer to Washington State University to complete a Bachelor of Science degree.

WWCC’s Degree Options
- Medical Assisting Certificate (4 Quarter program)
- Spanish Medical Interpreter Certificate

The Industry
Medical Assistants are skilled professionals who have specific training to work in a physician’s office or a clinic. Medical Assistants perform administrative functions and basic clerical skills, including writing business letters, compilation and filing of patient records, medical insurance coding and processing third party reimbursement, transcription, reception, and preparing requisitions.

Additionally, Medical Assistants are trained in many clinical skills, including obtaining vital signs, sterile technique, assisting physicians with diagnostic testing, minor surgical procedures and physical examinations, administering medications orally and via injection, laboratory procedures, phlebotomy, and processing and sterilization of medical equipment by autoclaving or other methods of disinfection.
The Industry
Nursing is the largest health care profession, nationally, regionally and locally. Employment for RNs will grow faster than all occupations through 2012. There will always be a need for nurses in hospitals, but an increasing number of nurses will be employed in home health, long-term care, and ambulatory care settings.

Career Opportunities
- Acute Care Nurse
- Office/Clinic Nurse
- Extended Nursing Facility Nurse
- Home Health Nurse
- School Nurse
- Charge Nurse

WWCC’s Degree Options
- Associate Degree in Nursing
- Practical Nursing Certificate
- Certified Nursing Assistant

The Industry
The growth and expansion of the outdoor power equipment and motor sport industries nationwide have created a growing need for qualified technicians to service, manage and sell equipment specific to this industry. Opportunities abound in various settings including golf courses, landscaping businesses, parks and recreation departments, rental outfits, dealerships, and consumer equipment.

Career Opportunities
• Golf Course Technician/Manager
• Dealership Manager, Supervisor, or Sales Representative
• Rental and Light Construction
• Parks and Recreation Industry
• Consumer Equipment Business

The Industry
The bioenergy industry needs skilled technicians and operators to manage the safe and effective operations of facilities which generate electricity, heat, transportation fuels, nutrients, soil amendments, reclaimed water, animal feed, chemicals, food and beverage products, and other high-value materials.

Career Opportunities
• Reginery Operator
• Biofuels Processing Technician
• Biomass Plant Technician
• Biomass Power Plant Manager
• Manufacturing Production Technician
The Industry
The demand for male and female professional golf managers and teachers has increased steadily with golf’s ever expanding popularity. Utilizing their knowledge of their sport, physiology, and corrective techniques, professional golf instructors work with golfers of all experience levels to improve their game. They determine the type and level of difficulty of exercises, prescribe specific drills, and evaluate the golfer’s games.

Career Opportunities
- Club Professional
- Equipment Manufacturer Representative
- General Manager
- Golf Instructor/Coach
- Golf Director
- Assistant Golf Professional

Watershed Ecology The Industry
Watershed Ecology blends knowledge of biological sciences with application of cutting-edge technical skills. Technicians will be skilled in identifying and assessing natural habitat needs of fish and wildlife in relation to healthy ecosystems, with emphasis on the restoration and management of aquatic environments.

Career Opportunities
This is a hands-on outdoor oriented career field with job opportunities such as:
• Fish and Wildlife Technician
• Habitat Specialist
• Water Quality Technician
Potential employers include federal, state, local, Tribal, and private agencies.
The Industry
Welding is used in shipbuilding, automobile manufacturing and repair, aerospace applications, and thousands of other manufacturing activities. Welding is also used in the construction of buildings, bridges, pipelines, power plants, and refineries. The demand for certified welders is increasing steadily as the industry strengthens requirements and improves construction standards.

Career Opportunities
- Trade Unions
- Gas Companies
- Fabrication Companies
- Manufacturing Companies
- Facility or Equipment Maintenance

WWCC’s Degree Options
- AAAS in Welding Technology
- Welding Certificate

The Industry
Wind Energy is one of the fastest growing industries in the world. The sharp rise in energy consumption and the increasing interest in sustainable resources have fueled the renewable energy industry, of which wind generation is a growing entity.

Career Opportunities
The need for employees to service the wind generators and wind turbines will increase; approximately 250 technicians are needed in the next five to seven years within a 50 mile radius of WWCC, Walla Walla and Clarkston campuses.

Work may include:
- basic circuits
- electrical motors and their controls
- electronic controls
- programmable logic controllers
- variable frequency drives

WWCC’s Degree Options
- AAAS in Wind Energy Technology
- Certificate in Wind Technology

High School Options

WWCC offers multiple opportunities for high-school aged students to participate in our college community. Options are also available for students over 21 to complete a diploma or GED.

Alternative Education Program
509.527.4324 - Walla Walla
The Alternative Education Program (AEP) provides students an educational opportunity outside of the traditional high school system. Students between 16 and 20 years of age may be eligible, who have not earned a high school diploma but have a sufficient amount of time to complete high school requirements. The program, a joint venture with local school districts, covers the cost of tuition and books for program participants.

Running Start Program
509.527.4324 - Walla Walla • 509.758.1718 - Clarkston
Created by Washington State legislature, Running Start provides opportunities for juniors and seniors in public high schools to enroll in courses at Walla Walla Community College. Academically qualified students are given an opportunity to attend college courses and earn college credits, tuition-free, while completing high school graduation requirements. *Home-schooled and private school students must enroll in a public high school to participate in this program.

Prof Tech Dual Credit
509.527.1876 - Walla Walla
A collaborative program between WWCC and regional high schools, students have the opportunity to earn college credits in professional technical offered at the high school. Colleges award credit to currently enrolled high school students who successfully complete college-equivalent courses with a “B” grade or better.

Other Options for High School Students
• Advanced Placement: Students may earn college credits for successfully completing advanced placement classes in high school and scoring appropriately on the related AP exam.
• CLEP Exam: (College Level Exam Program) Students may earn college credit by successfully completing exams in various subject areas.
