## Pathway Options:

## Textbook:

All courses in pre-college math starting summer 2017 will use a new version of the pre-college math textbook and will be administered through individual course shells attached to CANVAS (instead of MyLabsPlus).

If a student currently has an active paid MyLabsPlus account, they will be able to convert their old code to a new code (which will then be good for the duration of their pre-college math sequence) ONLY IF THEY ENROLL IN PRE-COLLEGE MATH FOR SUMMER 2017 OR FALL 2017. After Fall 2017, if a student has not been in a course and converted their code, they will need to purchase a new code for pre-college math.
