Health & Fitness

Strategies for Successful Aging

Item # 3504 Max Students: 25 \$54.90

What does it mean to achieve success as we age? In this course we will examine this question and consider options for increasing your chances of prospering as you age. Learn how to make effective, specific goals and plans to accomplish this. Join us and create your own personal, unique and specific plan, guaranteed to help you age successfully.

**Allen Jorgensen Main Bldg. D 120
Sept. 27-Oct. 25 Wed., 3:30pm-5:30pm**

Planning for the Home Stretch

Item # 3506 Max Students: 15 \$54.90

This course focuses on planning for retirement and the end of life with personal dignity. Examine the separate phases of retirement and how they will look for you. Plan for how you will live today, how you will be taken care of tomorrow, and the legacy you will leave behind. We will deal with budgeting for each phase, sources of income, and end of life planning including preparing appropriate estate planning documents (last will, health care directive, and general and durable power of attorney) as well as options for leaving a legacy when you are gone.

**Shelley Murphy & Mona Geidl Main Bldg. D 109
Sept. 25-Oct. 23 Mon., 4:00pm-5:00pm**

Creating Vital Health as You Age

Item # 3520 Max Students: 20 \$54.90

Learn how you can promote and create vibrant health as you age with evidence-based lifestyle medicine. Naturopathic physicians, Julie Figgins and Melissa McClintock, will team-teach this class about the exciting advances in the scientific understanding of health and aging. We will focus on the brain, cardiovascular, endocrine, and gastrointestinal systems as they relate to each other, the aging process, and health maintenance. A productive approach to this dynamic time will be presented.

**Julie Figgins & Melissa McClintock Main Bldg. D 104
Nov. 7-Dec. 5 Tues., 2:30pm-4:30pm**

Technology

Computer Kindergarten

Item # 3003 Max Students: 15 \$109.80

This computer fundamentals course will be held in a computer lab using Windows 7 computers. Computer Kindergarten is designed for beginners and will focus on getting familiar with all aspects of using a computer. This class will also be helpful for those needing a refresher course on the basics. We will cover internet research, email, file management, and much more. Discussion of computer terminology and practice using mouse and keyboard shortcuts will help make computer use easier for beginners. We

will practice these and other features repeatedly for retention purposes. Practice, practice, practice!! **(No class held 11/22).**

**Michael Kiesbuy Main Bldg. D 101-Computer Lab
Nov. 6-Dec. 11 Mon. & Wed., 1:30pm-3:30pm**

Quest Online Fundamentals

Item # 3005 Max Students: 10 \$FREE

The Director of Continuing Education will teach you how to stay up to date with the latest Quest news. This workshop will cover: email list, Facebook page, online registration, viewing the online schedule, and how to pay online. Open to all Quest members, regardless of computer experience level. Registration is required. Class is free to Quest members only.

**Jodi Worden Main Bldg. D 101-Computer Lab
Sept. 18 Mon., 2:00pm-3:00pm**

Android Smartphones

Item # 3508 Max Students: 15 \$109.80

This class will cover many features available on all Android devices, although some features are only available on the latest devices. The instructor will teach you how to use applications that will enhance your daily life and help you become more competent in the many things that devices can do. Using the camera for pictures and videos will be practiced heavily to capture precious moments. Using email, texting, and the internet will also be practiced, as these features are very helpful when not at home. *Not for iPhone users.*

**Michael Kiesbuy Main Bldg. D 243
Sept. 25-Oct. 25 Mon. & Wed., 2:00pm-4:00pm**

Windows 10 Made Easy

Item # 3509 Max Students: 15 \$109.80

This is a class designed for laptop users using the Windows 10 operating system. We will explore all of the new features of the latest operating system by Microsoft. This class is for all levels of computer experience. We will practice all aspects related to daily usage including: email, calendar, internet research, photos, word processing, and audio/video streaming. We will practice transferring files from one device to another including pictures, data files, device synchronization to multiple devices and more. **(No class held 11/22).**

**Michael Kiesbuy Main Bldg. D 243
Nov. 6-Dec. 11 Mon. & Wed., 4:00pm-6:00pm**

Literature

Story Writing II

Item # 3000 Max Students: 14 \$109.80

Story is the fabric of life and each of us has one to tell. Whether your story is fiction, memoir, creative nonfiction, or essay – the elements of good writing are the same. Class members work on different writing elements each week. They will share their writing (by reading their stories aloud) and critique the work of other class members. All levels of writing experience are welcome. **(Class meets on Fridays with the exception of two days, 10/12 & 11/9, both Thursdays. No class held 9/29, 10/13 & 11/10).**

**Allen Kopf Health Science Bldg. E 1835
Sept. 22-Dec. 15 Thurs. & Fri., 9:00am-11:15am**

Classical Greek Theater

Item # 3500 Max Students: 25 \$109.80

Do you love theater? Then come learn about its origins in ancient Greece. This course will take an in-depth look at Greek drama, specifically in Athens, where theater was entertainment, religious experience, political commentary, and social criticism. We will read plays by Aeschylus, Sophocles, Euripides, and Aristophanes, including *Oedipus Rex* and *Lysistrata*, which are still being performed today. Historical background, literary criticism, class discussion, and dramatic readings will bring ancient plays new life!

**Claire Valente Main Bldg. D 114
Sept. 25-Nov. 27 Mon., 12:30pm-2:30pm**

Classic Children's Literature

Item # 3510 Max Students: 24 \$109.80

Would you believe that our current concept of childhood goes back only about 200 years? In this class, we will look at how our definition of childhood was created and shaped by classic children's literature – books written primarily for (or about) children. Starting in the early 19th century, this class will provide a historical survey of children's lit that will span into the mid-20th century. Along the way, you may encounter some familiar texts, as well as some brand new or long forgotten.

Tamara Holloway
Sept. 26-Nov. 28

Main Bldg. D 103
Tues., 3:00pm-5:00pm

Les Misérables in Paris

Item # 3513 Max Students: 30 \$109.80

In 1862 Victor Hugo published *Les Misérables* from political exile on the Isle of Guernsey. Set during the post-Napoleonic era, from 1815 to the failed June rebellion of 1832, the novel evoked for French readers a renewed vision of freedom from tyranny. The book also helped to raise public consciousness of Paris as an urban setting ripe for republican revolution. In-depth guides to selected chapters and pages will lead you through the novel. The class will also view various movie portrayals together to better understand the text. There is no better introduction to the City of Light than this classic story of redemption.

James Winchell
Sept. 28-Dec. 7

Main Bldg. D 114
Thurs., 1:30pm-3:30pm

Quest Reads!

Item # 3515 Max Students: 18 \$95.00

We will discuss *The Other Wes Moore*. The book's author, Wes Moore, compares his own life and career with that of the other Wes Moore, a convicted felon. By comparing the outcomes of their lives he attempts to answer the question of why their lives diverged so sharply when both began life in single parent families and in poor, urban, crime-ridden neighborhoods. We will consider the role of luck, the choices they made, and the extent to which nature versus nurture determined their separate fates. We'll share our insights with Washington State Penitentiary (WSP) inmates who have also read the book. *The decision whether to run this class will be made by 10/31. No refunds after 10/31. Class will be held on Thursday 12/7 at WSP. (No class held 11/22 & 12/6).*

Science & Humanities

Crime in WW: What to do if it happens to you

Item # 3012 Max Students: 15 \$54.90

Meet your local law enforcement professionals. Find out about the gangs and drugs in our community. Protect yourself from identity theft, fraud, and scams. Learn what to do if you become a victim, what resources are available to you, and what a victim's civil and legal rights are. Learn about personal safety to keep yourself and your loved ones from becoming victimized. This class will be taught by knowledgeable individuals from our local area as well as the state.

Wanda Stevens
Sept. 28-Nov. 2

Off Campus – WWPD
Thurs., 1:00pm-3:00pm

Four Perspectives in the History of Ideas

Item # 3501 Max Students: 30 \$137.25

Questers will learn about the ideas and life examples of Pythagoras, Galileo, the Buddha, and Jesus Christ. We will study the Pythagorean idea of nature as governed by number; Galileo as exemplar of the modern scientific method and empirical inquiry; the basic teachings of the Buddha, especially mindfulness; and new ways to think about the life and teachings of Jesus Christ. All readings will be provided by the instructor.

Jesse Burgess
Sept. 26-Nov. 28

Prof.-Tech. Bldg. J 303
Tues., 5:30pm-8:00pm

Exploring Statistics

Item # 3502 Max Students: 15 \$54.90

Statistics is about data, numbers with a context. For example: a poll of 1,500 adults shows that 37% of those polled approve of President Trump's performance, with a margin of error of plus/minus 3 percentage points. What do these numbers mean and how can we use them to better understand information presented to us? This course will introduce you to data and chance; with emphasis on concepts and their impact in everyday life.

Bob Fontenot
Sept. 26-Oct. 24

Main Bldg. D 106
Tues., 2:00pm-4:00pm

The Renaissance: Why It Still Matters

Item # 3522 Max Students: 30 \$54.90

The Renaissance rises again, this time through the context of Deep History, introduced in previous courses. In this class we will ask the question: was the Renaissance a genuinely important phenomenon or just an artifact of a pro-Western bias? We will examine art, music, mathematics, science, politics and religion in some detail in an attempt to answer these questions. Students will continue their studies at home with assignments given by the instructor. **(No Class held 11/22).**

John Jamison
Nov. 15-Dec. 20

Wed., 2:30pm-4:30pm

Travel

Explore Glacier and Waterton National Parks

Item # 3524/3525 Max Students: 18 Sept. 19-23

Join glacial geomorphologist, Bob Carson, in an exciting exploration of some of the most "textbook" glacial landforms of the Pacific Northwest. Cross the Rocky Mountains from the Columbia Plateau to the Great Plains. Explore magnificent Glacier-Waterton Lake International Peace Park. View Mount Cleveland from a lake cruise on Waterton Lake. Walk across giant ripple marks on the floor of Glacial Lake Missoula. Collect Precambrian rocks and fossils. Float the Flathead River. Hike the Continental Divide. Look for big mammals and late wildflowers. See mountains that have been shoved tens of miles and where Canadian ice turned horizontal sediments vertical. *Payment is due in full by August 31st. No refunds will be given after August 31st. CLASS COST INCLUDES:* transportation, lodging, instruction, entrance to parks, Waterton Lake cruise, half day whitewater rafting trip on Flathead River. **Registration opened 8/14/17.** For an informational packet, contact Continuing Education. Deposit of \$500 is due at time of registration in order to hold your room. Bus will depart from the WWCC flagpole at 8:00am and return around 6:00pm.

3524: Shared Room
3525: Single Room

Tues.-Sat.
\$1,450.00
\$1,650.00

Natural History of the John Day Country

Item # 3527 Max Students: 20 \$190.00

Join us for a two-day outdoor learning opportunity in this historic and nature rich section of Northeastern Oregon! We will travel together to Ritter Hot Springs where we will explore everything from the soil up. We will discover plants, insects, mollusks, fish, mammals, and birds as we hike through the landscape of the John Day country. While hiking through this seldom toured area, we will take an in-depth look at the region's system of natural history. It is a 2.5 hour drive each way, and we will be stopping at Battle Mountain State Park each day. Don't forget your binoculars! *The decision whether to run this class will be made by September 25th. No refunds after September 25th.* Class will meet both days at the WWCC flagpole at 8:00am.

Mike Denny
Oct. 3 & Oct. 4

Off Campus
Tues. & Wed., 8:00am-6:30pm

The (Un) Mystery Tour

Item # 3529/3530 Max Students: 20 Oct. 14-15

Ok, so you can know where you're going just this once! Linnea is so excited she just can't keep it to herself! Join us for a weekend of fun in Union County, Oregon. This trip begins with a train ride on the Eagle Cap Excursion train, followed by a live musical performance of The Addams Family at the Elgin Opera House. We will stay overnight at The Historic Union Hotel in Union, OR. Sunday morning starts with a visit to the Union Historical Museum, followed by a picnic lunch and then a short drive to Hot Lake Resort. *The decision whether to run this class will be made by September 29th. No refunds after September 29th.* **CLASS COST INCLUDES:** all meals, transportation, lodging, train ride, Opera House tickets, and museum tour. Class will meet at the WWCC flagpole at 8:00am.

Linnea Keatts Sat. & Sun.
3529: Shared Room \$600.00
3530: Single Room \$800.00

Missoula Floods and the Ancestral Snake River

Item # 3531 Max Students: 20 \$95.00

Explore earth's youngest basalt plateau and largest flows with excellent examples of each in Southeastern Washington. Walk through giant ripple marks apparently going in the opposite direction of Pleistocene floods. Collect rocks from Montana and Idaho that are as much as 1.4 billion years old. Discuss whether lower Snake River dams should be breached. See four courses of the river that cut Wallula Gap (the Salmon-Clearwater River versus Columbia River basalt flows). Drive along coulees carved by the Missoula floods, including Kahlotus Lake in the ancestral Palouse River channel. Time permitting, we will also visit Palouse Falls. *The decision whether to run this class will be made by October 6th. No refunds after October 6th.* Bus will depart from the WWCC flagpole at 9:00am. 📖

Bob Carson Off Campus
Oct. 16 Mon., 9:00am-5:00pm

Leisure & Hobbies

Friday Films!

Item # 3503 Max Students: 30 \$87.84

This course will celebrate and focus on women protagonists in contemporary American film, as well as a few foreign films. This class is a discussion-based journey, using each week's film selection as the basis for our conversation. We will watch movies such as *Bend it Like Beckham*, *Jackie Brown*, *Whale Rider* and more. Bring your unique insights and interpretations of these films to class each week and we are sure to have a dynamic exchange. **(No class held 11/10 & 11/24).**

John Remington Main Bldg. D 242
Sept. 29-Dec. 15 Fri., 3:00pm-5:30pm

Genealogy: Telling Their Story

Item # 3511 Max Students: 15 \$76.86

During this class you will learn how to use genealogical research sources and methods to enhance and bring to life the stories of the past. This will add depth to your understanding of your genealogy and will create interest when you share this story with family members. Students will choose a person or place to study, research, and write about. This can be any individual, including yourself, or an ancestor, or even a place or photograph that interests you. Everyone has a story; bring yours to life! 📖

Donna Cummins Health Science Bldg. E 1835
Oct. 3-Nov. 14 Tues., 9:30am-11:30am

Understanding Generational Differences

Item # 3512 Max Students: 30 \$54.90

Does it ever seem like baby boomers and millennials come from different planets? For the first time in US history, six generations are interacting with each other. This course will provide an overview of the differences between the generations and generational characteristics, understanding

the different motivational triggers, highlight strategies for communicating with each generation, and address the common challenges with the multiple generations. **(No class held 11/10 & 11/24).** 📖

Pam Klem Main Bldg. D 243
Nov. 3-Dec. 15 Fri., 6:00pm-8:00pm

Let's Play Go!

Item # 3519 Max Students: 16 \$95.00

Learn all about the ancient board game Go. In this class we will learn the basics of the popular two-player game, as well as some of the culture, history, and etiquette of the game. Learn the legacy of professional Go players throughout history. Explore the richness of the game that takes seconds to learn and a lifetime to master. Play Go and meet new friends as you explore a beginner level introduction to the game. **(No class held 11/10, 11/22 & 11/24).** 📖

Kip Coleman Main Bldg. D 242
Sept. 29-Dec. 15 Fri., 6:00pm-8:00pm

Beginning Fly Tying

Item # 3523 Max Students: 12 \$75.00

Fly tying is an art form. Learn to create unique flies (bugs) that attract fish using feathers, bling, and other materials. We will start with the basics and work our way to more advanced flies. No experience necessary to join, however, patience with yourself is required in order to succeed. All supplies are included and at the end of class you will take home your creations. **(Class meets on Wednesdays, except for 11/21, which is a Tuesday).**

Diane Briggs Main Bldg. D 107
Nov. 1-21 Wed., 2:30pm-4:30pm

Arts

Encaustic Painting

Item # 3002 Max Students: 14 \$95.00

Encaustic painting is an ancient art using hot, clear and colored waxes on a hard painting surface. In this class beginners will learn a short history of encaustics and techniques of brushing, fusing, dripping, scraping, layering, etching, and polishing. They will learn about and practice accretion and photocopy transfers. Experienced encaustic painters will explore advanced techniques of cave-relief imprints, intarsia, masking, and pouring shapes to produce unique works of art. All supplies included.

Beginning Calligraphy: Discover Italic

Item # 3507 Max Students: 15 \$109.80

Italic, developed in the 15th century by Italian scholars, provides clarity, beauty, and informal freedom. It is a letter style most adaptable as personal handwriting. Writing a beautiful italic not only provides you with an avenue for creative self-expression, lettering practice will enhance patience, concentration, and focus. It can be a delightful meditation. This class will cover lower and upper case Italic letter forms, page layout, basic design for broadsides, and a favorite poem or quotation. 📖

Jeanne McMenemy Main Bldg. D 116

Tech. Ctr. Bldg. F 1204-A
Mon.-Thurs., 5:30pm-8:00pm

Dystopian Literature

Item # 4307 Max Students: 15 \$60.00

What do you believe in? What would you fight for? What would push you over the edge? In this course, we will grapple with these questions as they play out in dystopian literature. We will explore societies that have been reformed by technology, disease, violence, and social unrest. Familiar yet alien, these worlds give us insight into who we are now and what we could become. 📖

Kathryn Witherington Main Bldg. D 114
Oct. 5 - Nov. 2 Thurs., 5:30pm-7:30pm

Knife Skills

Item # 4308 Max Students: 12 \$45.00

Have you ever wondered how chefs create such beautiful cuts? Attend this seminar and Chef Jay will show you how. We will cover basic knife skills like how to hold the knife properly, what to do with your non-cutting hand, how to hone your knife, and how to sharpen your knife properly. We will practice classic knife cuts such as dicing, slicing, julienne, brunoise, lozenge, paysanne, and fermiere cut. We will then take our knife cuts and turn them into something delicious!

Basic Pawsitive Training

Item # 4309 Max Students: 10 \$70.00

Give your pet a solid foundation of basic behaviors with this 6-week introductory class for dogs of all ages. This class is designed to help you better communicate with and train your dog. Dogs will learn such skills as sit, down, come, stay, and walking on a loose leash. We might even throw in a fun trick or two! Challenges such as barking, digging, and chewing will also be addressed. Little to no previous training needed. Current vaccination records are required. 📖

Danielle Coila BMHS Dog Park
Sept. 27 - Nov. 1 Wed., 6:15pm-7:15pm

Natural Pest Control Methods

Item # 4313 Max Students: 30 \$60.00

Are pests a problem for you but you hate using unhealthy and possibly dangerous methods for removing them? In this course we will cover several methods for natural pest control. Some of these methods include using owl boxes, terrier dogs for rodents, and trapping/scaring of starlings and other non-native avian pest species. Program is primarily focused on agricultural use (row crops, orchards, and vineyards).

Tom Stephan Main Bldg. D 114
Oct. 20-Nov. 2 Fri., 12:30pm-2:30pm

Intro to Drones & Unmanned Applications

Item # 4318 Max Students: 30 \$105.00

This course introduces students to various unmanned aerial applications. Students will gain an understanding of unmanned flight, data collection, data analysis, and producing deliverables. Students will build flight plans and understand the different methods of collecting quality data, whether it is from automated flight plans or manually collected. The course introduces students to drone-related laws and regulations, as well as the requirements for conducting commercial flights. (No class held 11/10). 📖

Pete Bakker Main Bldg. D 101
Oct. 19-Nov. 17 Thurs. & Fri., 6:00pm-8:00pm

Music

Intro to Electronic Music/Audio Engineering

Item # 4301 Max Students: 10 \$125.00

Learn the basics of creating electronic music and recording your own audio from home. This course will give an introduction to beat production,

audio engineering, DAW navigation, song construction, signal flow, hardware use, live performance, basic music theory, and sound design.

Daniel Plemon Tech. Ctr. Bldg. F 1121
Oct. 2 - Nov. 2 Mon. & Thurs., 7:00pm-9:00pm

Guitar & Ukulele Fun

Item # 4303 Max Students: 12 \$85.00

Learn to play guitar and/or ukulele. This class will provide you with the fundamentals. You will learn basic chords, strum patterns, and fingerpicking accompaniment patterns in the context of simple folk/pop songs. If you have a little experience, join in as we learn to put music components together and start a group. You can use any fretted string instrument however, most common of course is the guitar and ukulele! You will need your own instrument. You will be strumming and singing in no time!!

Phil Lynch Prof-Tech Bldg. J 303
Sept. 25-Nov. 27 Mon., 6:30pm-8:00pm

Health & Fitness

Dance to Fitness

Item # 4199 Max Students: 16 \$85.00

This is a line dancing style exercise class with music that inspires you to move! A variety of dances and music styles are part of this class, joined with stretching and strengthening. This is an easy to moderate workout class. (No class held 11/22).

Elena Enriquez Center At The Park

CLASSES FOR ONLINE STUDY

Ed2Go offers a wide selection of noncredit online classes for business, career, and personal development. Enrollment is handled online through Ed2Go. Check out the new offerings and current classes at: www.ed2go.com/wallawalla

Contract Training

We know that skilled employees are a key factor to economic success. Whether it's upgrading the skills of current employees or training for new employees, we can help! We offer flexible, competitively-priced training options to almost any type of business, association or institution. We can create a class that is built just for you to ensure you receive the training needed. Visit www.wwcc.edu/community for more information.

NONPROFIT AND COMMUNITY LEARNING CENTER

The Nonprofit and Community Learning Center, sponsored by WWCC and Sherwood Trust, exists to provide networking, education, and ongoing training to nonprofit staff, board members, and community members on ways to be involved in strengthening local organizations and communities throughout our region. Sessions take place at the William A. Grant Water & Environmental Center (Bldg. R) at WWCC. Register online at www.wwcc.edu/community.

Ask, Thank, Report, Repeat: How to raise money

You, along with your board and fundraising leadership team, need a fundraising plan and rhythm that honors your donor's giving hearts and raises more money for your cause and mission. Ask, Thank, Report, Repeat is the answer. Come learn the secrets behind these four simple yet powerful words. By the end of our session you will know how to build an annual fundraising plan that is measurable, repeatable and successful. This workshop is designed for those new to fundraising.

Jim Shapiro

September 20

Wednesday, 9:00am-12:00pm

We are currently developing the schedule of training courses to offer in 2018 to benefit area nonprofits and strengthen civic engagement. We welcome your feedback and suggestions on which sessions we could offer to help you develop the skills or knowledge you need to increase your contributions to make our region's communities and nonprofits thrive. Please send your ideas by to Lydia Caudill by September 30: lydia@sherwoodtrust.org.

LEADERSHIP WALLA WALLA

Congratulations to those who have been accepted into the Leadership Walla Walla Class of 2017-2018! Sessions begin in September and participants will meet monthly through May.

The book/supply list can be found on our website: www.wwcc.edu/community

Contact Continuing Education with your ideas – You might just see it on the next schedule!

All classes are subject to cancellation based on low enrollment. Register early to ensure classes will happen! Evaluation of enrollment will be held at least 2-3 days before the first day of class.
