## Literary Arts

### The Iliad

"Epic". The word is overused nowadays, but without question it applies to one of the greatest poems ever written, *The Iliad*, by a man (or men) we call Homer. The class will begin with a discussion of ancient Greece, ancient Greek poetry, and the battle over Homer's identity. Then we will read through the entire work in chunks, discussing heroism, warfare, religion, gender, slavery, psychology, ethnocentrism, friendship, love, and death. This work has it all and more, but most of all, it is a tale for the ages.

We will share our insights with Washington State Penitentiary inmates who are also reading the memoir.

**Rogers Miles** Health Sciences Bldg. E 1835

## Dostoevsky's Brothers Karamazov

Widely considered to be one of the greatest novels ever written, Dostoevsky's *The Brothers Karamazov* marks the zenith as well as the end of his career. The novel centers on a sensational murder mystery and the three sons of the murder victim: one a passionate sensualist Army officer, the second an atheist and rationalist with revolutionary ideas, and the third a religious novice. Through their different viewpoints, Dostoevsky weaves into the murder plot deep explorations of the purpose of human existence, what human beings yearn for most, and our struggles with faith and reason, good and evil, intellect and passion, security and freedom, and suffering and salvation.
