200	1.21212	0.90909	0.60606	0.51948	0.45455

Teaching Assignments are based on Course Pay Type and Instructor Contact Units from the Class Schedule file, IS1002.

FTEF is calculated automatically in the Employee Contract Module. This chart is for manual and Mode 5 authorizations.

\* **Benefit Elg Pay Rate (3yr) effective January 1, 2016**

Mode 5 assignments in programs 011 and 111 must be coded to Research or Supervision on the manual Payroll Authorizations.

Self-support community service classes (148-014) use different salary rates to establish break-even levels.

- For self-support classes with salary of less than \$29.60 use column for FTEF calculation.
- For other off-schedule pay rates (higher than schedule), use the column which corresponds to the Course pay Type on IS1002.
