**Finance Unlocked for Nonprofits**
Why, what, who, and how of nonprofit finance. Through this interactive, hands-on workshop, we will work through the why, what, who, and how of nonprofit finance. We will dig deeper into two key reports - balance sheets and income statements - and then cover what board members need to know about IRS Form 990, the intersection of finance and fundraising, and oversight. Healthy finance practice can be habit-forming when people are working within their comfort zones, so we will discuss how to get your organization there.
